

DESCRIPTION

Say goodbye to waiting hours to charge your smartphone. With the Contact 20W charger and 60W USB-C to Lightning cable, you'll have the power you need to keep your devices always ready. Its output, combined with Power Delivery 3.0 and Quick Charge 3.0 technologies, ensures fast charging without damaging your battery. Thanks to its USB-C port and universal compatibility, you can power everything from your iPhone® and Samsung® to tablets, headphones, handheld consoles and more. All in a compact, lightweight, minimalist design that fits easily into any pocket or bag.

Universal USB-C compatibility

The 20W USB-C port gives you the convenience of using a single charger for multiple devices: smartphones from brands like iPhone® or Samsung®, tablets, headphones, e-readers and even handheld consoles like the Nintendo Switch®. Thanks to its universal compatibility, you won't need to carry several chargers. It's the perfect solution for travel, the office or home: one device to cover all your charging needs.

A cable that does so much more

More than just a cable, it's your solution for hassle-free charging and transferring. Charge your smartphone or tablet with its 27W USB-C to Lightning connection, offering excellent compatibility. You can also transfer files, photos and videos between devices in seconds thanks to its 480 Mbps Data transfer speed.

With a length of 1 metre and a minimalist white finish, it's perfect for home, work or carrying in your bag. A must-have that always saves the day!

Power and speed with Power Delivery 3.0

Say goodbye to long waits: with Power Delivery 3.0, your smartphone can reach up to 50% battery in just 30 minutes. With a maximum output of 20W, it adjusts the energy your device needs for a safe and efficient charge. It also prolongs battery life by preventing overheating and unnecessary charging. Power Delivery 3.0 means maximum speed without compromising the care of your devices.

Quick Charge 3.0: extra speed when you need it

There are moments when every minute counts, and that's where Quick Charge 3.0 makes the difference. With up to 18W, it provides much faster charging than a conventional charger. Ideal for giving your smartphone a quick boost when you're short on time. QC 3.0 technology intelligently adjusts the voltage, preventing damage and optimising the energy your device receives.

Compact design for everyday use

The Contact charger stands out not only for its power but also for its practicality. Measuring 45.5 × 28.2 × 57 mm and weighing only 41.8 g, it's easy to carry anywhere without taking up space. Its white finish and durable PC + ABS materials give it a minimalist, elegant look as well as great durability. A charger that combines style, lightness and efficiency.
