

## DESCRIPTION

Say goodbye to long waits when charging your smartphone. With the Contact 30W charger and 60W USB-C to USB-C cable, you'll have the power you need to keep your devices ready at all times. Its power, combined with Power Delivery 3.0 and Quick Charge 3.0 technologies, ensures ultra-fast charging without damaging your battery. Thanks to its USB-C port and universal compatibility, you can charge everything from your iPhone® and Samsung® to tablets, headphones, handheld consoles and more. All in a compact, lightweight, minimalist design that fits easily in any pocket or bag.

### Universal USB-C compatibility

The 30W USB-C port offers the convenience of using a single charger for multiple devices: smartphones from brands like iPhone® or Samsung®, tablets, headphones, e-readers and even handheld consoles like the Nintendo Switch®. Thanks to its universal compatibility, you won't have to worry about carrying several chargers. It's the perfect solution for travel, office or home: one device that covers all your charging needs.

### A cable that does so much more

More than just a cable, it's your hassle-free solution for charging and transferring. Charge your smartphone or tablet with its 60W USB-C to USB-C connection, offering great compatibility. You can also transfer files, photos and videos between devices in seconds thanks to its 480 Mbps Data transfer speed.

With a length of 1 metre and a minimalist white finish, it's perfect for home, work or to carry in your bag. A must-have that always saves the day!

### Power and speed with Power Delivery 3.0

Say goodbye to long waits: with Power Delivery 3.0, your smartphone can reach up to 50% battery in just 25 minutes. With a Maximum power of 30W, it adjusts the energy your device needs for a safe and efficient charge. Plus, it prolongs battery life by preventing overheating and unnecessary charging. Power Delivery 3.0 means maximum speed without compromising care for your devices.

### Quick Charge 3.0: extra speed when you need it

There are moments when every minute counts, and that's where Quick Charge 3.0 comes in. With a Maximum power of 18W, it offers much faster charging than a conventional charger. Ideal for giving your smartphone a quick boost when you're short on time. QC 3.0 technology intelligently adjusts voltage, preventing damage and optimising the energy each compatible device receives.

### Compact design for your everyday life

The Contact charger stands out not only for its power but also for its practicality. Measuring 45.5 x 28.2 x 57 mm and weighing just 43.5 g, you can always carry it without taking up space. Its white finish and durable PC + ABS materials give it a minimalist, elegant look and great durability. A charger that combines style, lightness and efficiency to always be by your side.
