Running Smart Coach System & 5ATM Waterproof

DESCRIPTION

The Mibro GS Active 2 smartwatch combines a durable design with smart features for everyday use. With built-in GPS, a 1.32" AMOLED display and 5 ATM water resistance, it's ideal for sports enthusiasts or anyone looking for a reliable health and activity tracker. With over 100 sports modes, 24/7 health monitoring and up to 10 days of battery life, it adapts to any active lifestyle. It exclusively features the most advanced padel mode on the market: it offers technical analysis with millisecond precision, ideal for better understanding each movement. Thanks to its 6-dimensional data matrix, it monitors posture, speed and rhythm of play in four key phases, making it a powerful tool for those looking to improve their performance in both training and competition.

Built-in GPS for accurate tracking

Track your outdoor routes and activities more precisely with the integrated GPS. Perfect for hiking, cycling, running and more, the onboard GPS lets you train without needing your phone.

Engineered for water

With 5 ATM water resistance, you can swim, shower, or train in the rain worry-free. Its tough design and durable materials make it a reliable companion in any environment.

Custom and advanced sport modes

Choose from over 100 sport modes including classic, indoor, outdoor, and specialized activities like interval training. Monitor calories, heart rate, distance, and pace in real time.

The Mibro GS Active 2 also includes an exclusive padel mode for players aiming to improve. This mode delivers technical analysis with millisecond-level precision, helping you better understand every move. Using a 6-dimensional data matrix, it monitors posture, speed, and play rhythm across four key phases. A powerful tool for those looking to boost performance, whether training or competing.

Health tracking at your wrist

Track your heart rate, blood oxygen levels, stress, and sleep quality. Includes move reminders and breathing exercises to support your daily wellbeing.

AMOLED display and lightweight design

The 1.32" AMOLED touchscreen delivers clear visuals, even under direct sunlight. The watch body is lightweight yet durable, built to stay comfortable all day and night.

Battery life that matches your pace

Enjoy up to 20 days of use on a single charge. With an efficient battery and optimized operating system, you can focus on moving, not charging.

Product dimensions

- **Case:** Approx. 47 mm diameter. Material: fiber-reinforced polymer + stainless steel.
- **Display:** 1.3" AMOLED, crisp resolution, reinforced glass material.
- **Strap:** Liquid silicone, adjustable length, compatible with 22 mm universal straps.

If used in seawater or swimming pools (fresh or saltwater), it is recommended to rinse the watch with fresh water afterward, due to the corrosive effects of chlorine or salt. If the watch has an auto-drain function, it is also recommended to use it after rinsing.

TECHNICAL SPECIFICATIONS.

Color	Black
Material	Aluminum alloy + polyamide with fiberglass
Autonomy	75 days (rest), 20 days (daily use)
Charging time	2 hours
Battery	350 mAh
Degree of protection	5 ATM
APP	Mibro Fit
Display	AMOLED 1,32" AOD, 1200 nits, PPI 353
Heart rate monitoring	Yes
Oxygen saturation	Yes
Screen shape	Round
Sleep monitoring	Yes
Alert	Yes
Charge	Magnetic
Phone calls	Yes (make and receive calls)
Alert	Yes
Stripes	Interchangeable, universal 22mm
