

DESCRIPTION

The KSIX 60 W cable is designed for those who want comfort, power and compatibility in one accessory. Its silicone coating provides a soft, flexible feel that enhances everyday use, while the aluminium alloy connectors ensure durability. With 60 W of output and Power Delivery 2.0, you can enjoy ultra-fast charging for smartphones, tablets and lightweight laptops. Its USB-C to USB-C format and stable data transfer make it a versatile all-rounder.

Flexible silicone and aluminium alloy

You'll notice the difference instantly: its silicone coating has a soft, comfortable touch that makes it ideal for everyday use. It is also highly flexible and resistant to pulls, bends and deformation, extending its lifespan. The reinforced connectors with aluminium alloy casing provide extra strength, even with intensive use.

60 W power for ultra-fast charging

Stop wasting time waiting for your devices to charge. With 60 W of power and 3 amps of current, this cable guarantees fast and efficient charging for smartphones, tablets and lightweight laptops. Its compatibility with Power Delivery 2.0 ensures each device receives exactly the right amount of power, always delivering maximum speed with total safety.

Universal USB-C connectors

One cable for all your needs. With its 1-metre USB-C to USB-C ports, it offers universal compatibility to charge Android® smartphones, iPhone®, tablets, headphones and many other devices. Its length is ideal for use at home, in the office or while travelling, always delivering consistent performance.

Fast and Practical Data Transfer

More than just charging, this cable also enables stable and efficient data transfer. Move photos, videos, music or documents in seconds with speeds of up to 480 Mbps. No need to choose between charging or transferring: the KSIX 60 W cable gives you both in one!
