

DESCRIPTION

In a world filled with wireless earphones, the Contact wired earphones prove that the classics still have their place. Their lightweight, comfortable design makes them a must-have for those who enjoy direct and consistent sound. The 1.2-meter cable with a 3.5 mm jack connector ensures compatibility with a wide range of devices, while the built-in microphone and multifunction button let you manage calls and music with ease at any moment.

Lightweight design for your everyday life

Designed to fit comfortably in your ear, these earphones offer a natural wearing experience. Their 3.5 mm jack cable guarantees compatibility with portable devices and stable audio transmission. Weighing only 12 grams, they are so light you can wear them all day without noticing. Whether you're at the office, on the bus or taking a spontaneous walk, they fit effortlessly into your pocket and your routine without taking up space or complicating things.

Your voice clear in every conversation

Thanks to the built-in microphone, you can answer calls clearly without taking your phone out of your pocket. The multifunction buttons allow you to change tracks or answer a call easily, even while on the move. A practical and convenient solution for those who walk around the city, commute or work in the office.

Ready for rain and splashes

With IPX4 protection, these earphones are built to keep up with you even when the weather turns. They withstand splashes, light rain or those moments when the sky decides to soak you just as you step outside. They are a reliable companion for unpredictable days, because life doesn't stop when it rains — and your music shouldn't have to either.
