DESCRIPTION

This case compatible with iPhone 13 is here to break the mould with a design that won't go unnoticed. Its rigid and opaque transparent back and its coloured edges will not be able to resist your smartphone. What's more, they protect your phone's camera from any external agent!

Your camera is always safe

If there's one thing that makes this case unique, it's the integrated camera protector. An extra that makes it something extraordinary and protects your smartphone camera from scratches.

Design and protection at the same time

This case model not only stands out for its embossed and colourful design, but also for its high-quality materials. It has a rigid and opaque back that keeps your smartphone's identity in the best possible way.

A universe of colours

The transparent back, sober and elegant, is complemented by the edges and coloured details that will give your smartphone the maximum joy. Different options to suit all tastes and to fit in perfectly with any style.
