

DESCRIPTION

The KSIX ultra-compact power bank is designed for everyday life and those moments when your battery runs out at the worst possible time. Its Plug & Go concept means it's ready to use with no extra accessories, offering 5,000 mAh focused on emergency charging and mobility. It features a removable USB-C cable so you don't have to carry extra leads, plus a foldable stand to watch content or join video calls while charging. Functional design that fits in your pocket, bag or backpack – a practical, accessible solution that's always ready to go.

Compact design made to carry anywhere

Its small size and lightweight build make it easy to take everywhere. A pocket-sized format with a clean, functional design that doesn't get in the way. The integrated cable aligns neatly with the body for a tidy finish, while the foldable stand stays hidden without adding bulk. A discreet and modern look designed to suit any style or situation, from the office to a last-minute trip, always ready in your bag, backpack or pocket.

Everyday charging capacity

With 5,000 mAh, it provides enough power to rescue your smartphone when you need it most. Maximum output of up to 12 W for efficient daily charging, featuring a USB-C port and an additional USB-A output for wider compatibility. It also includes a USB-C input for convenient and quick recharging of the power bank itself. A smart balance between size and autonomy, keeping your devices powered without carrying large, heavy batteries during your daily journeys.

Plug & Go system, no extras needed

The Plug & Go system simplifies charging thanks to its always-available removable USB-C cable. No need to carry additional accessories or search for cables in the bottom of your bag – it's ready from the very first moment. LED indicators let you check the battery level at a glance and know when it's time to recharge. Intuitive and straightforward to use, designed to save time and make life easier when you're in a hurry, compatible with USB-C smartphones and devices.

Built-in stand for viewing while charging

The integrated foldable stand allows you to position your smartphone horizontally while it charges. Ideal for watching videos, streaming a series or joining long video calls without holding your phone. It enhances your daily experience without the need for additional accessories and stays stable on any surface. A convenient solution for enjoying content at home, in the office or while travelling, turning a power bank into a compact portable entertainment hub when you need it.

Designed for real daily rhythm

Built to prevent you from running out of battery when you're away from home and to support long days without interruptions. Perfect for urban commuting, travel or busy schedules when your phone can't stop. It makes content consumption and communication on the move easier, helping you stay on track effortlessly. A practical power bank for real everyday life, always ready to save the day and keep everything under control with complete peace of mind.
