

# Kingsmith B2 Pilates Bench, Multifunctional, 5 Resistance Levels, 6 Positions, 150 kg, 11 Accessories

## DESCRIPTION

The Kingsmith B2 Pilates Bench transforms any room into a complete home training space. Designed to combine Pilates, strength training, mobility and recovery in a single piece of equipment, it neatly stores all its accessories inside to keep your home tidy. Its elegant design, inspired by modern home furniture, allows you to enjoy full-body workouts without compromising on style or space.

### A wellness studio at home

The Kingsmith B2 lets you perform a wide variety of Pilates, toning, strength, mobility and stretching exercises using a single piece of equipment. Thanks to its multifunctional design, you can train your legs, glutes, arms, chest, back and core, adapting every workout to your fitness goals.

### Adjustable resistance for every workout

The training arms feature five adjustment levels and provide up to 40 kg of resistance per arm (80 kg in total). The backrest also offers six incline positions, allowing you to adapt the bench to different exercises and training intensities.

### All accessories neatly stored inside

All included accessories are conveniently stored inside the bench, including resistance bands, dumbbells, Pilates handles, training handles and the magnetic training board. Everything stays organised and within easy reach while keeping your workout space clutter-free.

- 2 × 11.8 kg resistance bands
- 2 × 8.2 kg resistance bands
- 2 × 2.3 kg dumbbells
- 2 Pilates handles
- 2 training handles
- 1 magnetic training board

### Designed to blend into your home

Its minimalist styling, premium finishes and soft-touch upholstery allow the bench to remain on display as part of your home furniture. Its compact design prevents your fitness equipment from taking over your living space.

### Quick and ergonomic adjustments

The backrest and training arms can be adjusted easily using intuitive locking mechanisms, allowing you to switch between exercises in seconds. This versatility makes it easy to move from strength training to Pilates, mobility or recovery exercises without interruption.

### Built for intensive use

Its robust frame supports users weighing up to 150 kg, providing excellent stability throughout every workout. It also features integrated transport wheels, making it easy to move whenever needed.

### Train your way

From Pilates sessions to strength training and stretching, the B2 adapts to different fitness levels and training goals. It is a versatile solution for anyone

looking to train at home with a single piece of equipment while saving space and keeping every accessory neatly organised.
