

DESCRIPTION

A generic tabletop display stand designed to showcase the KSIX range of wearables at the point of sale. Measuring 48 x 26 x 20 cm and with capacity for 16 products —4 products across the front and 4 in depth— it allows different product variants to be organised and highlighted in an attractive way. Made from cardboard, it offers a lightweight yet sturdy structure and can be assembled quickly, easily and without tools.

TECHNICAL SPECIFICATIONS.
