KSIX 360 Ring Case With Magnet For Huawei P30 Transparent Black

DESCRIPTION

One case and three different ways to use it..The 360 Ring protects the smartphone while the metallic ring incorporated allows to use it in different ways: selfie mode, hands free mode or standing mode to read, play or enjoy multimedia content. ..Incorporated ring.This case incorporates a metallic ring with 360 degrees free rotation, to carry and place the smartphone in the desired position. .Thanks to the ring it's possible to hold the smartphone to text or take a selfie, to keep both hands free or to use the standing mode for playing, reading and enjoying multimedia content. ..High resistance to impacts and scratches.The 360 Ring is integrated by a TPU bumper, resistant and lightweight, that absorbs impacts, and an acrylic back cover resistant to scratches. Thanks to this combination, it ensures an excellent protection for the corners, edges and back. ..Back camera protection.The 360 Ring has reinforced edges around the back camera. It protrudes enough to keep the back camera lens protected. ..Compatible with magnetic car holder.This case incorporates a metal plate to place the smartphone on a magnetic car holder, very easily, without adding any additional piece. ..Main features.Metallic ring with 360 degrees free rotation.The ring can be used to take selfies, to keep both hands free or as a standing mode.Integrated by a TPU bumper that absorbs impacts, and an acrylic back cover resistant to scratches.It has reinforced edges around the back camera.It incorporates a metal plate to place the smartphone on a magnetic car

holder....Technical information.Case with 360 degrees metallic ring integrated.High resistance to impacts and scratches.Compatible with magnetic car holder.Made with TPU and acrylic.
