

DESCRIPTION

New camera protection extra cover The Duo Cam Protect Soft cover has a rubber texture, with soft touch and non-slip finish. It combines 2 colors and 2 different materials. Its backside is made of foggy colored acrylic and its edges are made of TPU, which results in a semi-rigid structure that ensures a perfect adjustment to your smartphone. It features an extra protection cover for the camera, which can be activated or deactivated just by swiping it. It will protect the smartphone and its camera from impacts and will keep it free from scratches. Rubber texture The Duo Soft Cam Protect cover has a rubber texture. Its soft touch and non-slip finish improve your smartphone grip. At the same time, this finish prevents fingerprints and dirt stains. News extra cover for the camera A new camera protector cover is introduced, which can be activated or deactivated just swiping it. Semi-rigid case Its structure is semi-rigid. Its backside is made of foggy colored acrylic and its edges are made of TPU, which guarantees a total protection of the smartphone. Main features Rubber texture finish. Soft and non-slip touch. Semi-rigid structure. Protects the smartphone from impacts and scratches. Prevents fingerprints and dirt stains.
