

KSIX STATION 3IN1 WIRELESS CHARGER FOR SMARTPHONE, AIRPODS AND APPLE WATCH 7.5W-10W WHITE + OC3.0 CHARGER

DESCRIPTION

Wireless charge for smartphones, Apple Watch and AirPods

The Station 3in1 wireless charger will allow you to charge your smartphone, Apple Watch and AirPods in one place. With its minimalist and cable-free design you will keep your spaces always organized.

Wireless fast charge for your Android and Apple smartphones

The Station 3in1 wireless charger has a fast transmission power mode of 7,5W or 10W*, to adapt to all the devices compatible with wireless fast charge (Android and Apple). The fast charge mode allows to charge your devices 1.4 times faster than the standard wireless charging mode**.

The Qi charger will adapt the wireless charge to the standard mode (5W) for those Qi compatible devices which dont allow the fast charging mode.

** If you have an iPhone 8, iPhone 8 Plus or iPhone x, please note that the maximum fast transmission power allowed by these devices is 7.5W. ** The fast charging mode requires a charger with QuickCharge technology 2.0 or higher (included) and works only with Qi fast charging compatible devices, such as iPhone 8/8 Plus/X and Samsung Galaxy Note 8/S9+/S9/S8/S8 +/S7/S7 Edge/S6 Edge Plus/Note 5.*

Wireless charge for Apple Watch and AirPods

This Wireless charger is capable of sending 2W and 2.5W transmission power to charge your Apple Watch (series 1 to 5) and your AirPods earphones (with charging case).

Qi compatible devices

The wireless charger is compatible with all Qi-enabled devices. It is possible to verify that the terminal is enabled with fast charging wireless technology in the user manual or by consulting the supplier. The compatible devices include (list updated 21/05):
