

DESCRIPTION

Special for magnetic chargers

Created to make the most of the smartphone, when it is connected to a magnetic charger such as Apple's MagSafe or MagCharge. It allows you to watch series or participate in video conferences very comfortably.

Foldable and rotary

Place it in the position you need for any task, while your mobile is charging. It is foldable, so it can be adjusted at an angle of 180°. In addition, its support circle can rotate 360°. Many possibilities!

Made with aluminum

The toughness of aluminum ensures a long life and greater resistance to any possible impact.

Technical information

Rotation: 360°

Bending angles: 180°

Material: aluminum

Compatibility: Apple MagSafe, KSIX MagCharge

TECHNICAL SPECIFICATIONS.

Color	Gray
Compatibility	Android magnetic charge
Material	Aluminium
Use	Home/Office
